CANADIAN COLLABORATIVE STUDY OF HIP FRACTURES

NEWS ABOUT OUR WORK

- Pierre gave a talk at the Centre for Clinical Epidemiology and Evaluation Rounds "Effective Collaborations in Health Services Research – a Hip Fracture Example" on May 30. He spoke about the 4 phases of team development and expectations when working with a new team. He also spoke about the time and attention required for team work and reasons for failure of teams.
- Katie will present our work on “Hip fracture mortality by hospital type and bed capacity” at the Canadian Orthopaedic Association Conference (June 16-19).

WORKS IN PROGRESS

- Trends in mortality after hip fracture surgery (Sobolev)
- Discharge disposition following hip fracture in Canada in previously community dwelling older adults, 2004-2012 (Beaupre/Guy)
- Identifying who benefits most from hip fracture surgery (Dunbar/Harvey)
- Incidence of complications and death after hip fracture surgery (Sheehan)
- Analysis of waiting time distributions for hip fracture surgery (Filliter)

OTHER PUBLICATIONS FROM THE COLLABORATIVE MEMBERS

Prevalence of musculoskeletal disorders among orthopedic trauma surgeons: an OTA survey

Biomaterial stabilized soft tissue healing for healing of critical-sized bone defects: The Masquelet Technique – a review.

Substrain-specific differences in bone parameters, alpha-2-macroglobulin circulating levels and osteonecrosis in a rat model.

Risk factors for revision of total knee arthroplasty: A scoping review.

Factors associated with the development of nonunion or delayed healing after open fracture.

OUR PUBLICATIONS

Constructing an episode of care from acute hospitalization records for studying effects of timing of hip fracture surgery.

UNDER REVIEW

Hospital mortality after hip fracture by hospital type and bed capacity. Sheehan et al. CMAJ. Under review.

ABOUT THE COLLABORATIVE

CIHR funded the team of surgeons, clinicians, health services researchers, analysts, decision makers, and experts in knowledge translation and patient engagement to study delivery and outcomes of care after hip fracture.

Members: Eric Bohm, Lauren Beaupre, Michael Dunbar, Donald Griesdale, Pierre Guy, Edward Harvey, Erik Hellsten, Susan Jaglal, Hans Kreder, Lisa Kuramoto, Adrian Levy, Suzanne N. Morin, Katie Jane Sheehan, Boris Sobolev, Jason M. Sutherland and James Waddell.
